## Remote Learning Offer

### Remote education provision: information for parents

This information is intended to provide clarity and transparency to pupils and parents or carers about what to expect from remote education where national or local restrictions require entire cohorts (or bubbles) to remain at home.

### The remote curriculum: what is taught to pupils at home?

A pupil's first day or two of being educated remotely might look different from our standard approach, while we take all necessary actions to prepare for a longer period of remote teaching.

### What should my child expect from immediate remote education in the first day or two of pupils being sent home?

- We shall immediately send pupils home with work to complete independently in the first instance.
- Pupils can access Key Learning work which has been placed on the school website. This will be uploaded at the start of each term.

### Following the first few days of remote education, will my child be taught broadly the same curriculum as they would if they were in school?

- We shall provide learning activities which complement the learning in school. This will be provided via TEAMS.
- We teach the same curriculum remotely as we do in school wherever possible and appropriate.

### Remote teaching and study time each day

#### How long can I expect work set by the school to take my child each day?

- We expect that remote education (including remote teaching and independent work) will take pupils broadly the following number of hours each day:

Key Stage 1	3 hours
Key Stage 2	4 hours

## Accessing remote education

### How will my child access any online remote education you are providing?

- All lessons will be provided and taught through TEAMS.
- Complementary work will be posted on the school website every Friday for the following week.
- Printed work packs can be sought from the school office by request.
- In addition, pupils may access Times Table Rockstars and Accelerated Reader etc.

### If my child does not have digital or online access at home, how will you support them to access remote education?

We recognise that some pupils may not have suitable online access at home. We take the following approaches to support those pupils to access remote education:

- We have a limited number of laptops which can be loaned to pupils in Key Stage 2 to support remote learning.
- Please contact the office should you require us to apply for devices that enable an internet connection.
- Work packs can be sought from the school office if required. Please contact the school office for further details.
- For pupils completing work on paper, this can be returned for feedback by either handing in to the school office or scanning/photographing and e-mailing to the year group email address.

### How will my child be taught remotely?

We use a combination of the following approaches to teach pupils remotely. Some examples of remote teaching approaches:

- Daily assignments will be posted on TEAMS which the pupils can complete and 'turn in' for feedback
- Live teaching and story sessions occur throughout the week
- Some use of recorded teaching (e.g. Oak National Academy lessons) are incorporated into complementary learning
- Printed paper packs produced by teachers are provided as a complementary learning package
- Commercially available websites supporting the teaching of specific subjects or areas, including video clips or sequences will be signposted where relevant

## Engagement and feedback

**What are your expectations for my child's engagement and the support that we as parents and carers should provide at home?**

We expect all pupils to engage with daily learning tasks, via TEAMS where possible. Assignments should be 'Turned in' regularly for feedback. We ask parents to promote continued learning through any remote period and liaise with the school regularly to celebrate success and seek any support or guidance necessary.

**How will you check whether my child is engaging with their work and how will I be informed if there are concerns?**

- Teachers will monitor the work accessed and turned in throughout the day for feedback and support.
- If engagement is a concern, parents will be contacted by the child's teacher or member of the Senior Leadership Team to discuss and resolve any issues or difficulties.

**How will you assess my child's work and progress?**

Feedback can take many forms and may not always mean extensive written comments for individual children. For example, whole-class feedback or quizzes marked automatically via digital platforms are also valid and effective methods, amongst many others. We will feed back following receipt of a pupil's work through TEAMS, e-mail or live meeting.

## Additional support for pupils with particular needs

**How will you work with me to help my child who needs additional support from adults at home to access remote education?**

We recognise that some pupils with special educational needs and disabilities (SEND), may not be able to access remote education without support from adults at home. We acknowledge the difficulties this may place on families, and we will work with parents and carers to support those pupils in the following ways:

- Pupils with SEND will receive appropriately differentiated tasks and resources to support their learning. Additional resources are available on the school website to complement the work. All staff can be contacted via e-mail or through the school office for further support.
- We recognise that younger pupils require a greater level of practical support. Our remote learning assignments and resources are designed to support parents and carers in delivering successful learning. Staff are on hand to provide assistance if required.

Thank you for your support during these challenging times.

Mr Saint  
Headteacher
