

Science

The children will be continuing to finding out about how plants grow including the conditions in which plants need to grow effectively. We will also be identifying and classifying trees in our school grounds. During term 6 we will be working scientifically and carrying out our own investigations.

Computing

During Terms 5 and 6 we will be using paint programme to create images for our powerpoint. The children will be adding backgrounds and slide transitions in powerpoint as well as sending and receiving emails.

Design Technology

We will be exploring moving objects and investigating how they are moving. We will then be creating articulated sea birds or flying creatures using the medium of card and paper mache.

Religious Education

The children will be learning to retell some of the stories that Jesus told. They will be looking at stories such as The Good Samaritan and thinking about the messages that such stories hold. The children will be looking at different important sacred books like the Bible and the Qu'ran.

Year 2 Term 5 and 6 2018

Art and Design

The children will be focussing on the Author and illustrator Eric Carle and creating work in his unique style. We will do this through painting and mixing colours to be cut out and collaged into pictures. We will then transfer and develop these skills to our work on The Lighthouse keeper's series of books.

Geography

The children will be continuing to learn about the different continents. They will also be comparing our locality with another country in the world. Looking at different cultures, food and clothing.

History

We will be continuing to investigate famous explorers including modern day explorers like Tim Peake and Neil Armstrong. We will be learning about where they went, what they discovered and how this has affected our lives.

Music

In music the children will be creating and combining sounds for effect and singing in an ensemble.

PE

In Term 5 and 6 we will continue our swimming sessions, working on basic strokes. Through our outdoor PE sessions will be continuing to develop our ball skills through short tennis focussing on hand eye coordination and returning the ball.
